

# OVERVIEW

## (Logan 2026 City Directions)

### **What** is Logan 2026 City Directions?

- It is a long-term (20 year) strategic plan for Logan City.
- It will be the guiding document through which future Logan City Council Corporate Plans, Strategies and Policies will be developed.
- It is our statement of the way we would like our City to look and feel in twenty years time.
- It's not just about the type of development we want to see or a wish list of the type of industry we want to attract.
- It's a plan that draws on the values of Logan residents to address the key challenges and opportunities which lie ahead.

### **Why** do it?

- To prepare for the future, Logan City needs to consider and focus on what lies ahead and not just on what it may be currently confronted with.
- Having values and ideas for its future can guide us like headlights switched on high beam. It provides clearer vision over greater distance and longer-range perspective.
- Logan City is at the strategic crossroads, not just in terms of our regional location in South-East Queensland, but also in terms of our readiness to expand on our 20 year strategic planning.
- Logan City needs to remain a sustainable Local Government Area, safeguarding the economic, socio-cultural and environmental well-being for present and future generations.

See over...

## How much change can occur in 20 years?

- When comparing how we live today with 20 years ago, we can see how much change is possible.
- Have you ever marvelled at how rapidly Logan City has changed over the last 20 years? Have you ever wondered what our lifestyles might be like in the next 20 years?
  - What type of houses we may be living in?
  - How will we travel to work?
  - What work will we be doing, or the lifestyle and recreational activities we may enjoy?
  - How might our decisions impact upon the community's quality of life?
- No one can predict with certainty what will happen in the next 20 years, but the City Directions process is about sharing our ideas on what we want for our future and then making sure we have the plans and strategies in place to achieve them.

## When is it happening?

- During 2006, Logan City Council will be undertaking a creative planning process that will provide directions for the future of our City.
- The information from surveys and different scenarios of a Logan City in 2026, will be the main tools to help us plan and prepare for change, and help us to be adaptable when change happens.

## Who will be involved?

- Logan City Residents (community)
- Elected Officials (councillors)
- Key Stakeholders
- Council Staff

## Where can we find out more?

- Contact the Strategic Services Branch on 3826 5254 for more information on the project, or visit Council's website [www.logan.qld.gov.au](http://www.logan.qld.gov.au).
