Go to www.logan.qld.gov.au to find out how.

*Go to www.logan.qld.gov.au for participating community groups.

Community Voices is an innovative, community development based project, using the powerful medium of music to bring the community together and promote understanding between wide cross-sections of the Logan community. Participants have been involved in creating, composing, practicing and performing a series of songs highlighting the strengths of the people of Logan. The culmination of the project is a inspiring and powerful CD that reflects the strengths, resilience, richness, diversity and uniqueness of the Logan community.

The Eyes are Windows CD is part of the Community Voices project, funded by the Queensland Government's Community Renewal program coordinated by the Department of Housing, in partnership with Logan City Council. It was managed by Logan City Council and sponsored by Sweet Freedom Inc., Lifeline Community Care Queensland, and L-Space Productions.
