

# Managing Horses on Small Properties

**Saturday 24 March**

9.30 am - 3 pm

Location: Logan Village

## **WORKSHOP BOOKINGS**

This workshop is free and open to Logan City Council residents. Bookings are essential and places are limited. Please note that this workshop is not suitable for children under 10.

Phone 3412 4859 or email [environment@logan.qld.gov.au](mailto:environment@logan.qld.gov.au) to reserve your place.

**This hugely popular and informative workshop is presented by Jane Myers from Equiculture who has over 30 years experience in the horse industry. The aim of this workshop is to promote safety, care and welfare for you, your horse and the environment.**

This seminar shows you how, by following good land management practices, you can reduce illness and injury to your horse/s, allow more natural behaviour for your horse/s, reduce feed bills, avoid spending money on the wrong facilities, increase the value of your property and enhance the wider environment all at the same time.

The presentation is a lively, indoor seminar with lots of pictures - no boring bits! Topics that will be covered include pasture improvement, manure management, vegetation and water management and property design and planning.

This workshop is organised by Logan City Council in partnership with SEQ Catchments.

**CITY OF OPPORTUNITIES**  
FOR FAMILIES, LIFESTYLE AND BUSINESS
