### How do I make an application for Operational Work?

For exempt development, a development application is not required.

Self assessable development does not require a development permit. However, the development must comply with all of the acceptable outcomes of the applicable codes otherwise it is code assessable or potentially impact assessable (requiring public notification).

For code and impact assessable development, a development application must be given to Council and be accompanied with:

- IDAS Application Forms 1 and 6;
- the relevant application fee;
- any mandatory supporting information stipulated in the application forms.

Applications that are impact assessable will require public notification of 15 business days.
