**neighbour day**  
Sunday 31 March 2019

Neighbour Day is celebrated on the last Sunday in March, with the aim of fostering personal connections that last the whole year round.

Strong neighbourhood connections has been linked to many positive benefits including creating sense of belonging, reducing loneliness, providing a physical and mental health boost and even lowering crime rates. With benefits like these, we could all stand to strengthen our neighbourhood ties.

This Neighbour Day, Logan City Council is encouraging everyone to get together with their neighbours in a local park for Logan's Biggest Picnic.

**More information, ideas and resources are available at:**
