Policy Statement:

Privacy (Personal information)

Council collects and uses personal information about Logan City residents, Council employees and others for the purpose of ensuring that Council business is conducted efficiently and effectively and to meet its statutory obligations. Council only collects personal information that is directly relevant and necessary for its operations.

Privacy obligations

In accordance with the IP Act, Council aims to ensure that all personal information held by Council, or under the control of Council, is collected and managed in accordance with the Information Privacy Principles (IPPs) prescribed in the IP Act.

Council is committed to meeting its legal requirements under the IP Act by:-

- complying with the Information Privacy Principles (IPPs);
- not transferring personal information out of Australia unless the transfer complies with section 33 of the IP Act; and
- taking reasonable steps to make contractors subject to the IP Act where required by Chapter 2, Part 4.

Access (Non-personal information)

The *Right to Information Act 2009* extends a right of access to information in the government’s possession or under the government’s control unless, on balance, it is contrary to the public interest to give the access.

Council is subject to the *Right to Information Act 2009* (RTI Act) and accordingly acknowledges the right of the public to obtain information about council's structure, policies and activities unless disclosure would, on balance, be contrary to the public interest and is committed to ensuring that personal information held about them by council is up-to-date, accurate and complete.

Council is committed to providing, as far as possible an open, accountable and transparent environment which enables members of the public access to council documents which do not require recourse to formal procedures in the RTI Act. This will benefit in facilitating disclosure with minimum administrative delay and cost. However, there will be occasions when it is necessary or appropriate to make an application under the RTI Act, for instance, where third party or sensitive non-personal information is requested, or where there are grounds for considering that the documents may be exempt from access under the RTI Act.
