DEVELOPMENT ASSESSMENT					
EXPLANATORY NOTES TO SCHEDULE					
<p>Fee Strategy All Fees & Charges are covered by PA 2016 Section 51 (1)(b)(ii) or otherwise specified. A development application will not be a properly made application for the purpose of PA 2016 Section 51 (1)(b)(ii) unless accompanied by the prescribed fee. Any development application involving multiple uses or types lodged with Council must be accompanied by a written breakdown showing how the Applicant determined the applicable fee.</p> <p>Application Involving more than one type of development (Combined Application) Fees for a combined application are to be the sum of those fees that would have been required in the event of a separate development application being lodged for each type (e.g. Material Change of Use, Reconfiguration of a Lot, Building Works against the Planning Scheme).</p> <p>Multiple Land Uses Where an application involves more than one type of land use (Material Change of Use), then the fee is to be based on the highest land use fee plus 75% of the fee for each additional land use proposed as part of the application.</p> <p>Land Use(s) over Multiple Lots Where an application involves more than one type of land use(s) over multiple lots, (eg, Reduced Setback for 20 dwelling houses) the fee is to be calculated based on the applicable land use fee multiplied by the number of times the use is applied for (eg, for 20 dwelling houses on 20 lots, the fee would be the dwelling house fee x 20).</p> <p>Variation Approval and Subsequent Development Permit The application fee for a PA 2016 variation request will be 100% of the relevant fee for the development type(s) and/or Land Use(s) being varied under the Variation Request, plus the relevant fee listed in the fee schedule for any application for development permit(s) lodged together with the variation request.</p> <p>Resubmission of a Lapsed Development Permit Where the currency period of an approval has expired and a development application is: 1. resubmitted within 6 months of an existing approval lapsing; and 2. the proposal is generally consistent with the former approved plans, and 3. there have been no changes to the Planning Scheme provisions applicable to the proposal, the applicable fee will be 75% of the application fee. NOTE: Council will not accept the resubmission of a lapsed approval more than once.</p> <p>Changes to Applications For a change post Approval, where the change is a 'minor change', the fee will be as per the fee schedule, otherwise where the change is an 'other change' the fee is the full development application fee as per the fee schedule.</p> <p>Application Risk Smart Assessment All RiskSmart applications must be lodged through a Council RiskSmart Accredited Consultant and the applicable fee will be 75% of the scheduled application fee.</p>
