

CATAPULT

Empowering the Youth of Today for the World of Tomorrow

The Catapult Program is a fun, hands-on way for young people in the City of Logan aged 12 to 18 to learn the skills they need to succeed in business and in life.

As a Council-led partnership with the business, education and community sectors, Catapult offers a range of opportunities that will help young people to build an entrepreneurial mindset and enterprise skills. These skills include:

problem solving

communication

critical thinking

human-centered design

collaboration

By building these skills, Catapult will provide a roadmap for young people who want to prepare for jobs of the future – or create those jobs for themselves.

Students will gain:

- Experience in collaborative development
- The opportunity to validate, pitch and roll out their own business ideas
- Advice from local entrepreneurs and experts
- Support from specially trained teachers

Our vision is for a City of Logan where Council, educators, parents and businesses work together to create meaningful, future-focused opportunities for our youth and long-term economic prosperity in our region.

How to get on board

With your involvement and support we want to grow the program to reach even more young people across the City of Logan. There are plenty of ways to get on board.

Schools & community organisations

Immerse your students and educators in a unique, inclusive learning environment that creates real-world experiences and connects them to future thinkers. By focusing on real outcomes for students, Catapult will spark their curiosity and passion.

Business

A program about business and entrepreneurship wouldn't be authentic without hearing from the people who make it happen. Ways to get involved include:

expert speakers & advisors

mentorships & internships

financial support
