HYDROGEN SULPHIDE CHARGES

Where Council determines an approved trade waste connection produces levels of Hydrogen Sulphide in excess of the limits detailed in the *Sewer Admission Standards*, the following charges will be applied.

Additional Base Charge

An additional base charge of \$4,000 per annum will apply to the connection in addition to the standard base charge.

Exceedance Charge

Where the connection produces Hydrogen Sulphide at a level whereby the eight hour time-weighted average exceeds 10ppm during any day, then an exceedance charge of \$1,320 per day will apply.
