

Application for Supported Bin Service

If for medical reasons you can't put your bins out on the kerbside to be emptied, you can apply for a supported bin service.

Our waste collector will walk onto your property and take your bins to the truck to empty them. They will then put the bins back in the same place on your property.

We do not charge an extra fee for this service.

This service can be cancelled at any time if no longer required. The standard kerbside collection service will then resume.

Conditions of Application

This application will only be approved if these conditions are met:

- The bin storage location is located within 60 metres of the road.
- There is no other person who lives at the address who can put the bins on the kerbside for emptying each week.
- Bins are kept in a location easily and safely accessed by the waste collector.
- All animals must be secured on your bin collection day.
- The second page of this form is confirmed by a medical practitioner.

Before the service is approved the contractor will visit your property to ensure they can service the bin safely and determine that it meets the above conditions. A council waste officer will advise you when your service has been approved or if there are any issues.
